Property Has Unlimited Career as Producer.

Kingman, Aria, April II — Determinations of the highest importance have recently been made on the 1015 foot level of the Tom Reed mine, at Catman. Mining experts say that conditions at that depth are such that the Tom Reed is assured of practically unlimited life. Since 1916 this mine has produced \$5,000,000 worth of gold, but the owners now feel that they can take out several times as much in the next five rears and not appreciably diminish their ore supply.

At 1075 feet the vein carries no water, while on the levels about the flow is so atrong as to necessitate constant pamping. In character the ore is much the same, but the rock in the footwall is strikingly different. It appears to be an andesite dating from the time of the precambrian flow which at one period covered flux entire region. Another interesting fact is that at 1075 feet the ore dips to the south, while above it dips to the north.

Most of the ore now being milled comes from the 250 foot level. The pay streak on that level is from mix to 10 feet wide. Stoping is to commence within a short time.

TROXEL OIL WELL REACHES 2000 FEET; WILL GO DEEPER

Toyah, Teras. April 21.—At a depth of 2000 feet, the first contract on the Troxel oil well has been completed. New contracts for continuing the work are being signed in New York. The drillers at 2008 feet are just through the gypsum. Considerable oil and gas already has been found at various cepths and the indications have been road all the way down. Tanks are full of water, there is plenty of wood on hand and everything is in readiness to carry on the work to completion.

## BABY'S HAPPINESS DEPENDS ON HEALTH

Cross, fretful babies usually need a laxative to make them comforta-die, and comfort begets happiness. Constipation is the cause of much likeomfort. Mothers should watch dosely the condition of their chil-fren's bowels and see that they are varily.

dren's bowels and see that they are regular.

A mild, pleasant lasting laxative such as Dr. Caldwell's Syrup Pepsin, is ideal for children because of its natural composition and gentle action, and because it contains no opiate, nazcotic or other harmful habit-forming drog. Dr. Caldwell's Syrup Pepsin is sold by druggists everywhere. A temspoonful at beddine will bring easy, certain rejief.
